# General Description

## Thornton Dale Ward

This ward covers the moorland to the north of Thornton village down to the water meadows of the River Derwent. The ward includes a significant part of Dalby Forest.

Pevsner (1966) considers Thornton Dale the most attractive village around. All Saints Church is entirely of the decorated period but was restored in 1866. The Rectory, Thornton Hall and Lady Lumley's Almshouses also receive a mention.

The settlements that make up the ward show a typical mixture of Old English (OE) and Old Scandinavian (OScand) derived place names, traceable to the Domesday Book (DB):

<b>Allerston</b>	Boundary stone of a man called Aelfhere (OE) ( <i>Alurestan</i> 1086 DB)
<b>Ebberston</b>	Farmstead of a man called Eadbeorht (OE) ( <i>Edbriztune</i> 1086 DB)
<b>Levisham</b>	probably homestead or village of a man called Leofgeat (OE) ( <i>Leuecen</i> 1086 DB)
<b>Lockton</b>	farmstead of a man called Loca (OE) ( <i>Lochetun</i> 1086 DB)
<b>High and Low Marishes</b>	The marshes (OE) ( <i>Aschilesmares, Chiluesmares, Ouduluesmersc</i> 1086 DB)
<b>Thornton Dale</b>	Thorn tree enclosure or farmstead in a valley (OScand) ( <i>Torentune</i> 1086 DB)
<b>Wilton</b>	farmstead or village where willow-trees grow (OE)
<b>Yedingham</b>	Homestead of the family or followers of a man called Eada (OE)

Thornton Dale Ward comprises the following parishes:

Allerston	Marishes
Ebberston & Yedingham	Thornton Dale
Levisham	Wilton
Lockton

## Indices of Deprivation

The Indices of Deprivation 2004 were published by the Department for Communities & Local Government (DCLG) in May 2004, and revised in June 2004. They measure deprivation at a small area level of Lower Layer Super Output Areas (SOAs). SOAs are a new geography designed for the collection and publication of small area statistics and fit within current Ryedale ward boundaries. The ID 2004 updates the ID 2000 in two key ways, more up-to-date data has been used and new measures have been incorporated as new and improved data sources have become available, therefore ID 2000 and ID 2004 are not comparable.

## Index of Multiple Deprivation

The IMD 2004 provides an overall score of deprivation, combining 7 distinct categories of deprivation, known as domains. These domains cover:

Low income	Lack of work	Poor health	Lack of education
Poor housing and access to services	Crime		Poor living environment

There are also two supplementary indices:

Child poverty	Older people in poverty
---------------	-------------------------

The Indices are available on the DCLG website [www.communities.gov.uk](http://www.communities.gov.uk) by following the links to Research and Statistics/Publications/Creating better communities research and statistics/Indices of Deprivation. Maps of SOAs are available on the Office for National Statistics website [www.statistics.gov.uk](http://www.statistics.gov.uk) under Neighbourhood.
