

| ACTION | EXAMPLE | TIMING |
|--|---|----------|
| i) LOCAL ENERGY EFFICIENCY AMBITIONS AND PRIORITIES | | |
| | <ul style="list-style-type: none"> • Ryedale District Council, (RDC) have previously signed up to the Nottingham Declaration and have previously investigated the merits of signing up to Climate Local, however staffing capacity makes this unlikely at present • RDC have previously seen a reduction in fuel poverty and using the new definition of fuel poverty, the current figure stands at 2738 households or 11.9% of Ryedale’s households our total per capita emissions are currently (2012 data) 9.4tco2, down from 10.8tco2 with the domestic emissions down to 2.8tco2 and we will endeavour to reduce this further through engaging with partners and residents to identify vulnerable residents and signpost them accordingly. • In partnership with Scarborough Borough Council we have actively encouraged Oil Cooperatives throughout the district to assist in alleviating fuel poverty. To date 96 people from 7 communities have benefited from this approach. • In partnership with Scarborough Borough Council we have joined ichoosr’s collective switch. Residents will be offered an opportunity to switch to a lower tariff 3 times per year. It is envisaged that up to £200 per year can be saved from a household’s annual fuel bill through this approach. • In partnership with a local contractor and Yorkshire Energy Partnership Ltd we will pilot a ‘fit for free’ photo voltaic (PV) panel scheme for our residents. This scheme will offer residents the opportunity to benefit from savings on their electricity bills without the need for the resident to pay for the cost of the panels and installation. • In partnership with Yorkshire Energy Partnership Ltd, we will continue to signpost residents to local, procured installers for a range of renewable technology and finance options. • Ryedale will investigate developing initiatives to support Solid wall insulation across the district. • Ryedale will ensure that updated codes of sustainability are followed and communicated. | On-going |
| ii) MEASURES WE ARE TAKING TO RESULT IN SIGNIFICANT ENERGY EFFICIENCY IMPROVEMENTS OF OUR RESIDENTIAL ACCOMMODATION | | |

| | | |
|---------------------------------------|--|--|
| Green Deal and ECO | <ul style="list-style-type: none"> • RDC in partnership with Yorkshire Energy Partnership, (YEP) who continue to ensure that Ryedale’s residents can benefit from funding through the next ECO funding phase. (Due April 2015). • We will work with partners to raise awareness of Government Initiatives which we will advertise using our website, local press, members’ bulletins and through our Parish Councils. • In partnership with City of York council and other district councils across North Yorkshire; RDC received funding from DECC for the installation of a small number of efficient gas boilers. Through this programme 13 households benefitted from this funding. • We promoted Carillion’s ‘go early’ free replacement boiler scheme to residents across the district. • We will continue to develop initiatives to help and support residents with Solid walled properties. | |
| Feed in Tariffs scheme | <ul style="list-style-type: none"> • Between December 2012 and December 2014, a further 385 residents benefitted from the Feed in tariff. RDC will continue to support and encourage residents who wish to install these technologies. | |
| Renewable Heat Premium Payment | <ul style="list-style-type: none"> • RDC in partnership with CES; 6 households had 7 technologies installed across the district. We assisted them in installing a mixture of eligible technologies, (Solar Thermal, air source heat pumps and biomass) and supported them through the RHPP Community fund. The funding obtained for this totalled; £14,700.00. • In partnership with a local contractor and YEP Ltd we will continue to signpost residents to the most appropriate technologies for their property and support them through the RHI funding process. • Between April 2014 and February 2015: 138 accredited installations were completed in domestic properties. | |
| | | |

| | | |
|--|---|------------|
| Zero Carbon Homes | <ul style="list-style-type: none"> No data set is available on this presently as Ryedale will follow National Policy and this will be set through Building Regulations and Planning. To date no zero carbon homes have been built by the housing provider across this district. | |
| EPCs | Ryedale will investigate purchasing landmark data and the data available from the Enterprise partnership; Leeds City Region. | |
| Minimum standards in the private rental sector | RDC will continue to offer financial incentives and investigate external funding options in order to target private landlords and to encourage take up of energy efficiency/renewable technologies in this section. | |
| Smart meters | RDC will communicate the smart meter roll out to its residents. | By 2020 |
| iii) MEASURES WE PROPOSE TO COST EFFECTIVELY DELIVER ENERGY EFFICIENCY IMPROVEMENTS IN RESIDENTIAL ACCOMMODATION BY USING AREA BASED/STREET BY STREET ROLL OUT. | | |
| | <ul style="list-style-type: none"> Between January 2013 and February 2015; 512 lofts were insulated and a further 81 cavity walls. In partnership with the White Rose Home Improvement Agency; Ryedale has received public health funding to produce and disseminate winter warmth packs, small boiler repair funding, and ice grippers to vulnerable residents across the district. Ryedale sits on the Health and Wellbeing board which is made up from local authorities and Clinical commissioning groups (CCG's). The group is currently looking to a produce a cross agency winter strategy. | April 2015 |
| iv) TIME FRAME FOR DELIVERY AND NATIONAL AND LOCAL PARTNERS | | |
| | <p>RDC actively work with a number of regional and local partners;</p> <ul style="list-style-type: none"> North Yorkshire County Council, City of York council and the other district authorities | |

| | | |
